

Bosnian:

Naš cilj je Vaša sigurnost. Bilo da se odlučite za mehaničku zaštitu ili za zaštitu zasnovanu na savremenim informacionim tehnologijama. Pored mehaničkih sistema zaštite, nudimo vam i najmodernija tehnološka rješenja na polju kontrole pristupa i elektronskih sigurnosnih sistema.

Naš partner na ovom polju je španska firma SALTO SYSTEMS, čiji smo takođe ekskluzivni zastupnici.

Pametna brava će Vam olakšati svakodnevni život, samo jednim klikom otključajte i zaključajte Vaša vrata bez fizičkog pristupa! SmartHome je tim pouzdanih profesionalaca čija je Vaša sigurnost prioritet. Pametna brava DANALOCK V3 omogućava Vam otključavanje vrata pomoću pametnog telefona.

U ovom polju smo zastupnici svjetski renomirane firme SALTO SYSTEMS koja nudi najnaprednija i najsigurnija rješenja u kontroli pristupa.

Nudimo sigurnosne cilindre za pojedinca ili grupu te vršimo izradu master sistema po želji kupca.

Za više informacija, možete nas kontaktirati na adresi Franca Prešerna 11, Aerodromsko naselje, putem e-pošte na info@narval.ba ili pozivom na broj 061 / 435 / 734.

English:

Our goal is your security. Whether you choose mechanical protection or protection based on modern information technologies. In addition to mechanical security systems, we also offer you the most advanced technological solutions in the field of access control and electronic security systems.

Our partner in this field is the Spanish company SALTO SYSTEMS, of which we are also exclusive representatives.

The SmartLock will make your everyday life easier, simply unlock and lock your doors with just one click, without physical access! SmartHome is a team of reliable professionals whose priority is your security. The DANALOCK V3 smart lock allows you to unlock your doors using your smartphone.

In this field, we are representatives of the globally renowned company SALTO SYSTEMS, which offers the most advanced and secure access control solutions.

We offer security cylinders for individuals or groups and provide customization of master systems according to customer preferences.
